

# HOLLYWOOD

The preparation of the Village Design Statement has provided the focus for ideas and inspiration from the Hollywood community. Members of the community have identified specific proposals and projects to improve the fabric and appearance of the village, and to enhance the quality of life for people who live in Hollywood. This list of potential projects forms the basis for future Village Enhancement Programmes and other funding opportunities.

## Enhancement of the Streetscape and Landscape Setting

1. Provide seating in graveyard.
2. Plant trees to improve the streetscape. Key areas are the streets between the pubs and Community Centre, around the school, and between the school and the main road junction.
3. Return granite kerbstones removed prior to the Tour de France visiting the village.
4. Upgrade forest walks and provide a children's play area in the forest.
5. Enhance the condition of stone walls and the village water trough. Reinstall the water pump.

## Traffic Movement and Circulation

6. Provide a pedestrian/ zebra crossing outside the Catholic Church and outside the forge cottage.
7. Implement traffic-calming initiatives and speed enforcement measures at crossroads.
8. Implement overall improvements to and rationalisation/ formalisation of parking in the village.
9. Provide footpaths between the school and the core of the village, and from the village centre to the football field on the other side of the main road.

## Creation of new facilities and improvements to existing infrastructure

10. Set up a drop-in centre for the elderly and mother and toddler group.
11. Enhance the appearance and condition of Watery Lane by restoring the walkway and installing railings in a manner that is sensitive to its rural appearance.
12. Divert electricity cables underground.
13. Improve medical facilities in the village:
  - Chiropract and Opticians clinics for the elderly
  - Defibrillator and CPR training
14. Establish a playgroup and run it as a non-profit community enterprise.
