Zoological Museum, TCD	2013	2015	2019		

This chart shows the current level of accreditation of certified MSPI Participants and the years in which they received accreditation certificates.

The accreditation process takes approximately 5 years. Participants usually submit applications for Interim Accreditation (25 standards) towards the end Year 3 in the Programme and applications for Full Accreditation (9 Full Standards and 25 Interim Standards) towards the end of Year 5. Some Participants are ready to submit an application for all standards after three years and can be allowed to skip the Interim Application stage.

Three years after receiving a Full Accreditation certificate Participants are required to submit an application to confirm Maintenance of Full Accreditation.

Participants are then required to submit a new application for Maintenance of Full Accreditation within five years of receiving a certificate to confirm Maintenance of Accreditation.
